Roksol TDNF Premium

CHEMICAL NAME	The aqueous solution of surfactants, solvents, inorganic salts and additives
TECHNICAL REQUIREMENTS	Appearance .....colorless to light yellow liquid pH.....6.9 ÷ 7.1 Surface tension of 0.2 % m/m solution, mN/m .....max. 40
GENERAL DATA	Viscosity at 20°C, mPa·s.....approx. 15 Density at 20°C, g/m .....0.99 ÷ 1.01 Solubility in water .....very good Flammability..... nonflammable
APPLICATION	Roksol TDNF Premium is used in mining to wet and combine dust into larger agglomerates which significantly reduces the risk of explosion.

Information presented herein has been given in good faith and to the best of our current knowledge and experience.
The compliance of specific properties of the supplied product with the data given herein and its fitness for the intended purpose should be checked before the product is used. The producer reserves the right to modify the information presented herein as a result of technological development and improvement of the product by the producer.
