EXOdis PC540i

CHEMICAL NAME	Aqueous sodium carboxylated copolymer solution with hydrophobic groups
INCI NAME	-
CAS NUMBER	-
FUNCTION	Dispersing agent
TECHNICAL REQUIREMENTS	Appearance at temperature (20÷25)°C.....clear to slightly turbid liquid pH of 10% solution.....6 ÷ 8 Dry matter, %(m/m).....24 ÷ 26
GENERAL DATA	Solubility in water ....good Density at 20°C, g/mL .....approx. 1.15 Odour.....characteristic Viscosity at 20°C, cP.....approx. 2500
APPLICATION	EXOdis PC540i is an anionic polymeric dispersant for mineral fillers and inorganic pigments, especially titanium white. The product is dedicated as a primary dispersant for a wide spectrum of white paints. Provides excellent stability and significantly improves the water resistance of coating formulations.

Information presented herein has been given in good faith and to the best of our current knowledge and experience. The compliance of specific properties of the supplied product with the data given herein and its fitness for the intended purpose should be checked before the product is used. The producer reserves the right to modify the information presented herein as a result of technological development and improvement of the product by the producer.
