

Chemax CCS-5860

| | |
|-------------------------------|---|
| CHEMICAL NAME | Surfactant Blend |
| INCI NAME | - |
| CAS NUMBER | Mixture |
| FUNCTION | Cleansing Agent, Degreasing Agent, Wetting Agent |
| TECHNICAL REQUIREMENTS | pH (5% Aqueous)..... 7 Typical Water, %..... 20 Typical |
| GENERAL DATA | Appearance @ 25°C..... Colorless to Light Amber Liquid Specific Gravity @ 25°C.....1.05 Aqueous SolubilitySoluble |
| APPLICATION | Chemax CCS-5860 is stable in 45% KOH and 30% NaOH. This product is also stable in sodium hypochlorite solutions which allows for formulation of high alkaline cleaners that will bleach stains as well as remove fats and oils. It produces a high foam that is ideal for formulating smokehouse cleaners and carwash concentrates. |
