

Polikon Test 50

CHEMICAL NAME	Mixture	
TECHNICAL REQUIREMENTS	Appearance	clear or slightly turbid liquid without mechanical impurities
	of yellow-g	reen colour with fluorescence
	Density at 20 °C, g/cm ³	1.070 ÷ 1.080
	Kinematic viscosity at 20°C, mm ² /s	0.5 ÷ 5.0
	pH	7.0 ÷ 8.5
GENERAL DATA	Solubility in water	good
	Other solvents	glycols, alcohols
	Flash-point in open crucible	above 100
	Solidification temperature, °C	max 50
APPLICATION	Fire resistant fluid for testing and maintenance of hydraulic mining machinery.
