

## Emulgator 1KRO

<b>CHEMICAL NAME</b>	Mixture of surfactants
<b>TECHNICAL REQUIREMENTS</b>	Appearance ..... clear liquid of straw to light-brown colour Saponification number, mg KOH/g ..... 140 ÷ 160 Stability of emulsion, h ..... min. 3 Water, % (w/w) ..... max. 0.5
<b>GENERAL DATA</b>	Solubility in water ..... forms turbid solutions Other solvents ..... methanol, ethanol, benzene, acetone Density at 25°C, g/ml ..... approx. 0.96 Odour ..... characteristic Flash-point, °C ..... approx. 170 Solidification point, °C ..... below -10
<b>APPLICATION</b>	Emulgator 1KRO is used as a component of drilling fluids or emulsifying compositions.
