

Maxlube 200

CHEMICAL NAME Fatty Acid Diester

INCI NAME -

CAS NUMBER Proprietary

FUNCTION Lubricant, Emulsifier

TECHNICAL REQUIREMENTS

Acid Value.....	20 – 25 Typical
Color (Gardner).....	7 Typical
pH (10% Aqueous).....	5.0 – 8.0
Water, %.....	1 Maximum
Specific Gravity @ 25°C.....	1.05 – 1.15

GENERAL DATA

Appearance @ 25°C.....	Amber Liquid
Pounds Per Gallon.....	9.42
Aqueous Solubility	Soluble

APPLICATION Maxlube 200 provides excellent lubricity at low use levels in oil based systems where it imparts antiwear properties. This product is also recommended for ashless antiwear applications including hydraulic fluids and gear oils.
