

## EXOantifoam S100

<b>CHEMICAL NAME</b>	Mixture
<b>INCI NAME</b>	-
<b>CAS NUMBER</b>	-
<b>FUNCTION</b>	Silicone anti-foaming emulsion
<b>TECHNICAL REQUIREMENTS</b>	Appearance at (20÷25)°C ..... homogenous emulsion, white to straw yellow colour
<b>GENERAL DATA</b>	Solubility in water ..... creates dispersions pH of 5% water dispersion ..... 5,5 ÷ 8,0 Odour ..... weak
<b>APPLICATION</b>	EXOantifoam S100 is a silicon emulsion of high anti-foaming properties. Product is dedicated to water systems, especially to ones containing surfactants, where it counteracts and reduces foam formation. It is recommended to mix the product before use to homogenise it.
