

Roksol WET

CHEMICAL NAME	Aqueous solution of anionic and nonionic surfactants, glycol and antifoams
TECHNICAL REQUIREMENTS	Appearance clear liquid, colorless to pale yellow pH.....min. 7 Active substance, %(m/m).....min. 20 NaOH resistance..... suitable Foaming ability, ml.max. 28
GENERAL DATA	Solubility in water very good Viscosity at 20°C, mPa·s.....approx. 10
APPLICATION	Low-foaming wetting agent for mercerizing.
