

Rokryl SU25

CHEMICAL NAME	An aqueous dispersion of anionic acrylic copolymer
TECHNICAL REQUIREMENTS	Appearance milky dispersion Dry matter, % (m/m).....24 ÷ 26 pH of product9.5 ÷ 10.5 Resistance to electrolytes 2mol/L NH ₄ OH solution, ml.....min. 60 2mol/L HCOOH solution, mlmin. 60
GENERAL DATA	Solidification point, °Capprox. 0 Solubility in water dilutable Density at 20°C, g/ml 1.02 ÷ 1.03 Viscosity at 20°C, mPa·s.....10 ÷ 15
APPLICATION	Rokryl SU25 is used in tanning industry to thightening leather with corrected grain.
