

Roksol MOST

CHEMICAL NAME	Mixture
TECHNICAL REQUIREMENTS	Appearance at 20°C.....milky white homogeneous liquid Dry matter, % (m/m).....10 ÷ 12 pH of product6.0 ÷ 8.0 Density at 20°C, g/ml1.00 ÷ 1.05
GENERAL DATA	Solidification point, °Capprox. -10 Solubility in waterdilutable Viscosity at 20°C, mPa·s.....approx. 5
APPLICATION	The product is recommended for the stabilization against dusting of the chimney dust produced in power plants and minings.
