

EXOvant A11

CHEMICAL NAME	Mixtures
INCI NAME	-
CAS NUMBER	-
FUNCTION	Emulsifier
TECHNICAL REQUIREMENTS	<p>Appearance at (20±25) °Cviscous liquid, yellow to brown</p> <p>Colour in Gardner scale at 25°C max. 11</p> <p>pH of 1% solution.....9.0 ÷ 10.5</p>
GENERAL DATA	<p>Solubility in water very good</p> <p>Other solvents..... xylene</p> <p>Flash point, °C 77</p> <p>Density at 20°C, g/cm³ 1,045 ÷ 1,065</p> <p>Odour.....characteristic</p> <p>Solidification point, °C -3,0</p> <p>Viscosity at 20°C, mPa·s.....450 ÷ 700</p>
APPLICATION	<p>EXOvant A11 can be applied as an auxiliary agent for herbicidal formulations containing glifosat and its salts as the active substance. For application time, EXOvant A11 ensures stability of the mixed composition. It guarantees optimum of active agent distribution.</p>
