

## Rotquick

<b>CHEMICAL NAME</b>	Mixture of surfactants
<b>TECHNICAL REQUIREMENTS</b>	Appearance at 20-25 °C..... colorless to light yellow liquid pH of product .....6 ÷ 9
<b>GENERAL DATA</b>	Solubility in water ..... very good Odour.....characteristic Density at 20 °C, g/ml ..... approx. 1.011 Kinematic viscosity at 20°C, mm <sup>2</sup> /s ..... max. 10 Boiling point, °C ..... approx. 100°C (water evaporates)
<b>APPLICATION</b>	Rotquick is degreasing agent for removing impurities and oil derivatives from hard surfaces (asphalt, concrete floors, etc.).
