

Roksol SDTP

CHEMICAL NAME	Water solution of sodium O,O- diethyl dithiophosphate
INCI NAME	-
CAS NUMBER	3338-24-7
FUNCTION	-
TECHNICAL REQUIREMENTS	Appearance at room temperature..... clear liquid with yellowish to brown color (presence of a small amounts of an oil phase on top and precipitate on the bottom of the packaging is acceptable) pH of 1% solution min. 10.0 Water content, % (m/m)50 ÷ 2
GENERAL DATA	Solubility in watergood Boiling point, °Capprox. 104 Solidification point, °Capprox. 2 Density at 20°C, g/mlapprox. 1.2 Active substance, % m/mapprox. 50
APPLICATION	Collector in flotation process.
