

BRILLESS PROFESSIONAL PLASTIC CLEANER 500 ML

DESCRIPTION	A professional alkaline agent for cleaning plastic surfaces. Efficient and easy to use.
COMPOUNDS	Nonionic surfactants, phosphonates.
TECHNICAL REQUIREMENTS	<p>A transparent or opalescent liquid with the characteristic smell for the raw materials used.</p> <p>Color transparent to straw</p> <p>pH 12,0 – 14,0</p>
APPLICATION	Effectively cleans plastic surfaces: garden furniture, window profiles and PVC elements. It does not contain abrasives and therefore does not scratch the cleaned surfaces.
