

## Technical Data Sheet

# TANU<sup>®</sup> coat 0901003

### Polyurethane Dispersions

TANU<sup>®</sup> coat 0901003 is a solvent-free, water-based, aliphatic, highly elastic polyurethane dispersion for the application in high-quality wood coatings.

#### Fields of Applications

Professional and DIY Coatings

Wood, Furniture & Parquet Coatings

highly recommended

recommended

conditionally recommended

#### Benefits

TANU<sup>®</sup> coat 0901003 is characterized by high UV resistance and excellent adhesion even on critical substrates. It is suitable as co-binder for elastification of hard binder types.

#### Chemical Composition

TANU<sup>®</sup> coat 0901003 is a solvent-free polyester polycarbonate modified polyurethane dispersion.

#### Typical Properties

Properties*	Unit	Value	Method
Non-volatile content:	%	40	10 min, 150° C
Density (25° C):	g/ml	103	
Solvent:		water	

\* The values indicated in this data sheet describe typical properties and do not constitute specification limits.

## Technical Data Sheet

## Polyurethane Dispersions

### Recommended Level

TANU<sup>®</sup> coat 0901003 is applied in levels individually adapted to the system.  
Optimal levels are determined through a series of laboratory tests.

### Storage

TANU<sup>®</sup> coat 0901003 has to be stored within the temperature range of 5° C - 30° C. Freezing or longer storage above 30° C could impair the product quality. Contamination with bacteria or fungi could lead to irreversible damage to the product which is conserved only for transportation and storage.

### Shelf Life

TANU<sup>®</sup> coat 0901003 has a shelf life of 6 months from the date of production in sealed, original packages when stored at 20° C. After the expiration of the product's shelf life no more warranty and liability are granted. A longer storage does not automatically mean that the product is useless. We recommend to check the specifications before applying a longer stored product. The product should be stirred before application.

### Safety Information

TANU<sup>®</sup> coat 0901003 is safe when used according to instructions. We recommend that you read the information in the material safety data sheet before using the product.
