

## EXOstat 187

<b>CHEMICAL NAME</b>	Fatty acid, ethoxylated
<b>INCI NAME</b>	-
<b>CAS NUMBER</b>	-
<b>FUNCTION</b>	Antistatic agent
<b>TECHNICAL REQUIREMENTS</b>	Appearance at a temperature of (20÷25) °C ..... white to yellow viscous paste or wax Saponification number, mg KOH/g ..... 92 ÷ 97 pH of 1% solution ..... 6.6 ÷ 8.5
<b>GENERAL DATA</b>	Solubility in water ..... creates emulsions Other solvents ..... alcohols, hydrocarbons Density at 25°C, g/mL ..... approx. 1.06 Melting point, °C ..... approx. 29
<b>APPLICATION</b>	EXOstat 187 is an anti-static substance in used as a surfacelowering agent for film resistance made of polyethylene or polypropylene.
