

Propoxylated fatty alcohol C12-15

CHEMICAL NAME Alcohols, C12-15, propoxylated.....

CAS NUMBER 74499-34-6.....

TECHNICAL REQUIREMENTS

Appearance:colourless liquid

Colour, Hazen:max 50

Water content:0,2%_{m/m}

Hydroxyl number:58-63 mg KOH/g

Acid number:max 0,1 mg KOH/g

Kinematic viscosity at 40⁰C:37-45 mm²/s

GENERAL DATA -

APPLICATION Propoxylated alcohol C12-15 is a nonionic surfactant.

It is used for:

- production of detergents,
- production of lubricants
- production of a package of fuels additives.
