

EXOsoft PO30

CHEMICAL NAME	Oleic acid, potassium salt
INCI NAME	Potassium Oleate
CAS NUMBER	-
FUNCTION	Anionic surfactant of plant origin.
TECHNICAL REQUIREMENTS	Appearance at (20±25)°C.....Clear yellow liquid Dry matter, %(m/m) 25 ÷ 28 pH of 1% solution 9.5 ÷ 11.4
GENERAL DATA	Solidification point, °C approx. 0 Density at 20°C, g/mL approx. 1.01
APPLICATION	EXOsoft PO30 is an anionic surfactant of plant origin, environmentally friendly. In cosmetic formulations, it acts as an emulsifier and washing agent. It is used in rinse off body and hair cosmetics such as shampoos, shower gels, liquid soaps, including those for children. The product is also used in household and professional cleaning products, especially in washing preparations, as a cleaning and foam controlling agent.
