

ROKAfenol N9PF

CHEMICAL NAME	Nonylofenol, etoksylowany
INCI NAME	Nonylphenol ethoxylated
CAS NUMBER	127087-87-0
FUNCTION	Excipient
TECHNICAL REQUIREMENTS	<p>Appearance of product at temperature (20±25) °C..... clear, colorless or slightly yellow, viscous liquid</p> <p>Identification A, B compiles</p> <p>Acidity or alkalinity, mL ≤ 0,5</p> <p>Hydroxyl value, mgKOH/g 84 ÷ 94</p> <p>Cloud point, °C 52 ÷ 58</p> <p>Ethylene oxide, ppm ≤ 1</p> <p>1.4 - Dioxane, ppm ≤ 10</p> <p>Water, % ≤ 0,5</p> <p>Total ash, % ≤ 0,1</p>
GENERAL DATA	-
APPLICATION	<p>ROKAfenol N9PF is a non-ionic surfactant that belongs to the group of ethoxylated nonylphenols. In preparations for pharmaceutical use, it is mainly used as a spermicide for non-hormonal contraception. It is also used as an agent in the preparation of washing, laundry and cleaning agents. It is also used as an emulsifier.</p>
