

Chemstat® CI-1020/60DC

CHEMICAL NAME	Surfactant Blend
INCI NAME	-
CAS NUMBER	Mixture
FUNCTION	Corrosion Inhibitor
TECHNICAL REQUIREMENTS	Bulk Density, g/cc 0.368 Typical Activity, %58 – 64
GENERAL DATA	Appearance @ 25°COff White Powder
APPLICATION	Chemstat® CI-1020/60DC is an internal vapor phase corrosion inhibitor for use in extruded products and is designed primarily for use in polyolefin resins. Chemstat® CI-1020/60DC is an easily handled free flowing powder possessing strong internal lubricating properties. The recommended loading of Chemstat® CI-1020/60DC is 0.33-4%.

Revision Date: 19.05.2016
