

EXOdet W

CHEMICAL NAME	A professional use detergent designed for the application in natural fibres.
INCI NAME	-
CAS NUMBER	-
FUNCTION	Cleansing agent
TECHNICAL REQUIREMENTS	Appearance at temperature (20÷25)°Cclear or turbid liquid pH of 2% solution.....5.0 ÷ 7.0
GENERAL DATA	Solubility in water very good Density at 25°C, g/mlapprox. 0.99 Solidification point, °C below -10 Viscosity at temperature 20°C, cP.....approx. 105
APPLICATION	EXOdet W is a concentrated detergent and degreasing agent used in the textile industry. The product has a high wetting and degreasing properties, making it ideal for removing heavy dirt from natural fibers such as wool during pretreatment.
