

Roksol ICESOLDE PAN/35L

CHEMICAL NAME	Aqueous solution of anionic and nonionic surfactants and preservative additive
TECHNICAL REQUIREMENTS	<p>Appearance at 20°C.....yellow to yellow-orange homogeneous clear liquid with tendency to gel</p> <p>Dry matter, %(m/m).....min. 35</p> <p>SO₃ org., %.....min. 5.5</p> <p>SO₃ sulf., %.....min. 1.5</p> <p>pH of 10 % solution.....7.5 ÷ 9.4</p> <p>Colour of 10% solution, mg J₂/100ml.....max 10</p>
GENERAL DATA	<p>Solubility in water.....good</p> <p>Other solvents.....ethyl alcohols</p> <p>Solidification point, °C.....below 0</p> <p>Density at 25°C, g/ml.....approx. 1.05</p>
APPLICATION	The preparation used for industrial washing fiber, woolen yarn and fabrics from wool, linen and silk.
