

Propoxylated fatty alcohol C12-14

CHEMICAL NAME Alcohols, C12-14, propoxylated.....

CAS NUMBER 68409-59-6.....

**TECHNICAL
REQUIREMENTS**

Appearance:..... colourless liquid

Colour, Hazen:max 50

Water content:0,2%*m/m*

Hydroxyl number: 58-63 mg KOH/g

Acid number:max 0,1 mg KOH/g

Kinematic viscosity at 40°C: 37-45 mm²/s

GENERAL DATA -

APPLICATION Propoxylated alcohol C12-14 is a nonionic surfactant.

It is used for:

- production of detergents,
- production of lubricants
- production of a package of fuels additives.
