

ROKAfenol PN 7K

CHEMICAL NAME	Phosphorus esters of ethoxylated nonylphenol
INCI NAME	-
CAS NUMBER	68412-53-3
TECHNICAL REQUIREMENTS	<p>Appearance..... homogenous liquid, light brown to brown</p> <p>Acid value, mgKOH/g.....90 ÷ 130</p> <p>pH of 1% of water solution2 ÷ 3</p>
GENERAL DATA	<p>Odour..... weak, characteristic</p> <p>Solubility in water.....forms emulsions</p> <p>Other solvents..... methanol, butanol, benzene, toluene</p> <p>Density at a temp. of 25°C, g/ml.....approx. 1.10</p> <p>Temperature of solidification, °Capprox. 0</p> <p>Temperature of boiling, °C above 230, with decomposition</p>
APPLICATION	Used for the production of household chemistry agents. Ingredient of emulsifying compositions.
