

# SyncoPol DL400

<b>CHEMICAL NAME</b>	Poly (propylene) glycol
<b>CAS NUMBER</b>	02-5322-69-4
<b>FUNCTION</b>	Polyether Polyol for Polyurethane Application
<b>TECHNICAL REQUIREMENTS</b>	Apperance.....clear liquid Color..... clear liquid Water Content, %.....max. 0.05 Hydroxyl Value, mg KOH/gm..... 265 - 295 Acid Number, mg KOH/gm.....max. 0.05 Total K+/Na+, ppm .....max. 5.0 Color, Pt-Co .....max. 50 Unsaturation, meq/gm .....max. 0.05
<b>GENERAL DATA</b>	Molecular weight, g/mol..... ~400 Viscosity (25°C), cps ..... 50 - 80 Odor.....mild odor
<b>APPLICATION</b>	<ul style="list-style-type: none"> <li>• coatings, Elastomers, Adhesives, Sealants,</li> <li>• in Prepolymers and One-shot Formulations,</li> <li>• blends with other polyols in rigid and flexible foam formulations.</li> </ul>
