

Chemsulf S2EH/40

CHEMICAL NAME	2-Ethylhexyl Sulfate, Sodium Salt, Solution
INCI NAME	-
CAS NUMBER	126-92-1
FUNCTION	Emulsifier, Cleansing Agent, Wetting Agent
TECHNICAL REQUIREMENTS	Solids Content, %39 – 41 pH (1% Aqueous)7.0 – 9.0
GENERAL DATA	Appearance @ 25°C Colorless to Light Yellow Liquid Pounds Per Gallon8.83 Specific Gravity @ 25°C1.06 Aqueous SolubilitySoluble
APPLICATION	Chemsulf S2EH/40 is an excellent high foaming, hard surface wetting agent which has high electrolyte stability and foaming properties. This product is most commonly used in the formulation of textile and household cleaners.
