

Roteor M Premium

CHEMICAL NAME	Mixture
INCI NAME	-
CAS NUMBER	-
FUNCTION	-
TECHNICAL REQUIREMENTS	<p>Appearance at temperature (20±25)°C.....liquid, blue to green</p> <p>Kinematic viscosity at 20°C, mm²/s.....max 10</p> <p>pH at (20±1)°C6,5 ÷ 9,5</p>
GENERAL DATA	<p>Density at 20°C, g/mL.....approx. 1.06</p> <p>Solubility in water at room temperature.....very good</p> <p>Solidification point, °Capprox. -16</p>
APPLICATION	<p>Synthetic, foam-forming fire-extinguishing concentrate used to produce low, medium and high expansion foams, to extinguish class A and B fires (PN-EN 2:1998/A1:2006). Can be used with tap water and seawater. Prior to use can be mixed with other similar fireextinguishing concentrates. Wetting agent for all kinds of dust. The product is covered by CNBOP approval. This product is for the purposes described in this STW, for industrial use and for professionals. If the Buyer wants to use the product for other purposes than those specified in the Technical Specification for the Product, please contact the manufacturer for consultation by sending an email: industrial.application@pcc.eu.</p>
