

EXOcare ML70

CHEMICAL NAME	Mixture of surfactants
INCI NAME	Sodium Laureth Sulfate (and) Cocamide MEA
CAS NUMBER	-
FUNCTION	Basic surfactant
TECHNICAL REQUIREMENTS	<p>Appearance at (20±25)°C.....viscous paste</p> <p>pH of 20% solution 9.5 ÷ 11.5</p> <p>Anionic active matter, %(m/m)..... 48 ÷ 52</p> <p>Water, %(m/m) 28 ÷ 32</p> <p>Solubility in water good</p> <p>Solidification point, °C approx. 2</p> <p>Density at 25°C, g/mL approx. 1.00</p>
APPLICATION	<p>EXOcare ML70 is a concentrated mixture of basic surfactants, especially recommended for use in cold-processed cosmetic and detergent formulations. This easy-to-process blend provides excellent cleaning, thickening, foaming and foam stabilizing properties. This makes it ideal for use as a basic surfactant in cosmetic washing preparations, such as shower gels, shampoos, bath preparations, liquid soaps, but also in cleaning preparations intended for children. Due to its excellent detergent properties, it is also used in household detergents, e.g. dishwashing liquids.</p>
