

Chemid CDM-211

CHEMICAL NAME	Modified Alkanolamide
INCI NAME	-
CAS NUMBER	68603-42-9
FUNCTION	Emulsifier, Lubricant, Foaming Agent, Cleansing Agent
TECHNICAL REQUIREMENTS	Acid Value.....45 – 55 Alkali Value86 – 109 Color (Gardner)..... 8 Maximum IR (Infrared) Pass/Fail Solubility (5% Aqueous) Clear
GENERAL DATA	Appearance @ 25°C.....Amber Liquid Pounds Per Gallon..... 8.66 Specific Gravity @ 25°C..... 1.04 Aqueous SolubilitySoluble pH (5% Aqueous)..... 9.5
APPLICATION	Chemid CDM-211 is a modified 2:1 coco diethanolamide. This product is widely used for lubricity and emulsification properties in textiles and metalworking and as a foam generator and mild detergent for hard surface cleaning. Recommended use levels: 0.25 - 1.0%

Revision Date: 19.05.2016
